I know Chamrun founders for over a decade, and had a pleasure of working with them in couple of digital marketing, digital platforms and system development projects. We both shared ideas and concepts whilst working on a partnership between both our companies to deliver best solutions to our clients. The team and results were phenomenal. We manage achieving the impact that we wanted to provide to our clients. I am always looking forward to more collaborations with Hani and will definitely recommend him as a key contact for any digital affiliated project. Dr. Reza

Positive: Value

The Chamrun platform has the key features of a next generation e-learning and digital marketing system. Not only is it easy to produce courses and learning, the user experience for learners is interactive, collaborative and social -everything required to engage learners in an online experience. It has Nice user interface, structured course setup, I would strongly recommend to my clients.

Positive: Professionalism, Responsiveness

My company have been working with Sina and Emily for a year now. They are professional and super responsive to our enquiries and concerns. They understand what is needed to move forward in their respective fields and they truly wants the best for their clients. What I love most about them is the flexibility provided especially during this pandemic, they are always supportive and always ready to lend a helping hand.

Working here has been a pleasure and an honour. My colleagues are friendly, helpful and supportive. The bosses are kind, and they make sure that we are having a blast working and learning new things. It makes the job much more enjoyable and working less stressful. The people make sure that there is more to a job than just work, and we do have an awesome pantry as well! :)
